

I Have A Dream

To my grandson Ryan,

I truly believe our country desperately needs a message of appreciation for the freedom which we so often take for granted.

I dream of our country being healed and our people being united as Americans, one nation, under God, as it was always intended to be.

I hope and pray, one day, a united USA can make the world safe for your generation.

Maybe you can help to make my dream come true. Do you have a dream?

Maybe I can help with you with your dream when you eventually get one that has a deep meaning to you. Try and make it one that will help other people then God will surely be on your side.

"I am proud to be an American,
I know a house divided cannot stand.
Can we walk together hand-in-hand,
in the Freedom of the USA?"
